# TAKE CONTROL

## Take Control Series -

Along with a class you will receive a free ebook from the Take Control series!

These books cover a wide array of topics to help get to know your Mac or iPad better than ever.

### When are classes?

You tell us! Please follow the link on the cover page and fill out the short survey so we can get classes scheduled!

### Where are classes?

In the conference room at Double Click Computers!  
4122 Nazareth Pike  
Bethlehem, PA, 18020

### What will you use?

Bring your own equipment! Using your own computers and/or iDevices will leave you feeling comfortable with your technology.

### Who can attend?

Anyone is welcome to attend a class! We request a minimum of 5 people to hold a class but no more than 10 are allowed per session.

## What is Take Control?

The Take Control ebook series from TidBITS Publishing provides practical, real-world advice about OS X and iOS, along with popular Macintosh apps. It also tackles current Internet topics, such as password security, online privacy, and the cloud. The series was begun in 2003, when it was founded by the husband-and-wife team of Adam and Tonya Engst, publishing veterans with 25 years of writing, editing, and publishing experience in the Internet, magazine, and book industries. Since then, Take Control has published over 125 titles and helped tens of thousands of Apple users.

## Take Control Topics...

- Yosemite/El Capitan
- Apple Mail
- iCloud
- iOS 9
- Passwords
- Photos
- Pages
